Blanket Tips

When blanketing, throw the first layer on too far forward & gently pull back so the sheet is not pulled up against the direction of the hair. Then check to make sure the straps are not tight across the chest to help prevent shoulder rubs. If you are short, ask for help!

Turnout Reminder

No one should bring horses in without consulting Robin. Horses are frisky in cold weather & we have a system to keep horses paired up with nearby buddies. Also, please pick out snow-packed feet in the aisle so stalls stay dry. Thanks!

Membership Reminder - Go to links on web site - get organized now.
