

# Back Bay Farm Newsletter March 2009

**Blue skies ahead...**

## **March Show Appointments**

Show riders, please schedule a time in March with Robin to discuss your show goals and hand in your membership card copies. (You can print the USEF/USHJA info on one page off the USHJA site.)

## **Six-month Show Leases!**

Excellent opportunities: R2D2 & Dunraven are both proven winners in the show ring. Improve your riding with more time in the saddle & enjoy an experienced partner this show season. April 1<sup>st</sup>- September 30<sup>th</sup>.

**First Show, Let's Go:** Evenstride 3/15

## **Keep Off the Grass**

When walking down the driveway, please do not let ponies or horses step on the grass, especially near the house. All cars should stop or slow until riders get to a wider area without leaving hoof prints (or tire tracks) on the soft grass.

## **BBF Gives Back**

Many cheers for Pete who takes the time to turn in all the Nutrena feed labels, which benefit the New England Equine Rescue (NEER), a nonprofit volunteer network that rescues from auctions, abuse/neglect cases or helps place unwanted equines. They called to say, "Thank you.":

## **Coming Attractions**

Barn improvements include construction to improve ventilation for summer and to discourage birds. Also, work to replace some older siding and enclosing the upstairs tack trunk area for a cleaner, more comfortable customer space.

## **Spread the Word**

Huey & Havana now have excellent sale videos to show case their talents. We hope to link them to youtube soon. Captain is also listed for sale
